Art Unit: 2833

1. Claims 61-63 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 61, lines 6-10, the features "their own set of ... and terminal contact" were not disclosed in the original specification. Therefore, they are considered new matter and what they refer are unclear. Applicant is required to cancel the new matter in the reply to this office action.

2. Claim 61 is objected to because in line 4, "two" appears to be --a pair of--; line 10, a comma (,) should be inserted after "contact".

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

4. (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 61-63 are rejected under 35 U.S.C. 102(b) as being anticipated by Shimochi.

Insofar as the claims can be understood, the disclosure of Shimochi provides a complete response to each and every element set forth in the claims. For example: Fig. 4 shows an insulation plug housing (10, 11), at least one conductive plug contact 17', a pair of spaced-apart planar plug walls 19, a front section of each wall is read as the recited unitary beam which is

engageable with a plug receiving space of a receptacle contact (not shown), and legs 20 are read as the recited terminal contacts.

As to claims 62-63, a bridging element 18 for connecting walls 19 and is made of a unitary piece of stamped metal.

6. Applicant's arguments with respect to claims 61-63 are have been considered but are moot in view of the new ground(s) of rejection.

7. Any inquiry concerning this communication should be directed to Hien Vu at telephone number (703) 308-2009.
